## How to install GUI for the IDS camera

1) Navigate to the link: <a href="https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc="https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc="https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc="https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc="https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc="https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc="https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc="https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc="https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc="https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc=#https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc=#https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc=#https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc=#https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc=#https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc=#https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc=#https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc=#https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc=#https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc=#https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc=#https://en.ids-imaging.com/download-details/AB02202.html?os=linux&version=&bus=64&floatcalc=#https://en.ids-imaging.com/download-details/AB02202.html?os

And download IDS Software Suite 4.93 under Software Package(1).

- 2) create a folder somewhere (doesn't matter where, i did on desktop) and move the tar file there.
- 3) unpack the tar file with the following command: tar zxvf ids-software-suite-linux-4.93.0-64.tgz
- 4) run the following command: sudo sh ./ueye\_4.93.0.989\_amd64.run and press Y when asked.
- 5) click on Show Applications and search for "ueye camera manager"
